VOL XVIII.--NO 108 PORTLAND, OREGON: SATURDAY, JUNE 8, 1878. PRICE—TEN CENTS

GENERAL NEWS.

[BY TELEGRAPH TO THE OREGONIAN]

Meeting of Tammanyites

New York, June 7.—The Tammany hall committee met to-night with a full attendance. Henry Clinton presided and delivered an address, which was adopted as the expression of the views of the Tammany hall general committee. The address while approving the Potter investigation opposes any attack upon the presidential title as dangerous to the institutions and fruitless in its results.

Races at St. Louis

St. Louis, June 7.—First race mile heats, was won by Dan K, favorite 2d time 1:44. Official announcement was made at the judges' stand that this was the fastest time with the weights ever run in America.

Gen. Crook's Opinion.

Omaha, June 7.—Gen. Crook is of opinion that the Idaho Indian troubles may require considerable force to subdue them. He recently visited that country and took personal observations at the agency, and it is his opinion that the principal trouble arose from the fact that the Indians have not had enough to eat. He attaches no blame to the agents for this, as he thought they had faithfully and honestly distributed supplies furnished by the government, but the fact is the government supplies have been short. While at the agencies the Indians depend partly on the game they can kill, there is no game of any account in the vicinity of Idaho agencies and the Indians depend wholly upon government supplies. In proportion to other tribes the Bannacks and other Idaho Indians get a good deal less than the Sioux. In regard to the reported excursion of Sitting Bull, Gen. Crook says that when he was at the agency recently, Sitting Bull sent word that he wanted to come back, and that he would come peaceably, but that he got no encouragement. He does not believe the report that Sitting Bull is going on the war path, and as to the Indians in the department of Platte, he thinks they can easily be held in check.

Freemasonry.

New York, June 7.—The grand lodge of Masons of this state to-day adopted the following:

Resolved, that we refuse to recognize as a Freemason any person initiated, passed or raised in a lodge where the existence of a Supreme Being is denied or ignored.

WASHINGTON CITY.

Tillamook Lighthouse Bill.

Washington, June 7.—The senate committee reported favorably on a bill appropriating $50,000 for the construction of a lighthouse on Tillamook Head, Oregon.

Stanley Matthews Letters.

Washington, June 7.—The president to-day, in reply to a resolution of the Potter committee requesting him to furnish the original or authenticated copies of the letters of Stanley Matthews to the president and the letters intended to secure an appointment for James E. Anderson. Several letters were, before the request can be complied with, as in the earlier part of the administration thousands of letters were received at the executive mansion, but for want of time were not indexed, and therefore it will be necessary to make a careful search for the correspondence.

Anti-Resumption Defeated.

Washington, June 7.—The advocates of the repeal of the specie resumption act were defeated by one vote in the senate to-day. Having rejected the resumption repeal bill and the consideration of the army appropriation bill, avowing their belief that if the vote could have taken up to-day there would be every probability of further financial legislation. The issue being thus distinctly joined the vote resulted in a final defeat of the repealers and inflationists by a majority of one.

Levisse's Testimony.

Washington, June 7.—In Levisse's testimony before the investigation committee to-day he stated that he cast his vote as an elector for Hayes and Wheeler, and signed one set of certificates to that effect, but that when another set was made out in order to correct a technical defect he was not present, and his name was signed by another party.

BY ATLANTIC CABLE.

Attempt on the Emperor's Life.

Berlin, June 7.—The *National Zeitung*, the organ of the Liberals, publishes a communication from the deputies who recently voted against the anti-socialist law, explaining that they did so because they considered Hodel's attempt on the emperor's life was the isolated act of a miserable creature. Dr Nobeling's careful arrangements and his network of associations, however, they say, justify extraordinary measures to save and heal the nation. The emperor's appetite is better, but his condition is otherwise unchanged. Dr Nobeling's brothers, who are officers of the army, have arrived here. They were received by a high officer in attendance on the emperor. They showed themselves anxious to give any information in their power. Nobeling has been quite unconscious since yesterday morning, and constantly watched and everything he says is recorded. The emperor hears with all reports of Nobeling's condition.

Condition of the Emperor.

Berlin, June 7.—The shot left in the arm of the emperor includes one buckshot, which, on account of its size, may have to be extracted The smaller shot will be allowed to remain. It is said that Nobeling has been ... The emperor's strength is in ... swelling of the right arm is subsiding. The condition of the other wounds is satisfactory. There are no symptoms of fever. The minister of state is considering measures for immediate adoption in the interest of order and public security, and also what measures shall be submitted to the federal council.

The German Government.

Berlin, June 7.—The *National Gazette*, the organ of the Liberals, says if the government goes before the reichstag asking extraordinary powers to protect the dynasty and country, if we are convinced such powers will be readily granted by a majority of the reichstag, the government of course accepting the responsibility for the necessity of such powers with constitutional application.

Public Sentiment in Germany.

Berlin, June 7.—The following facts and incidents show the state of public feeling in Germany:

The editor and manager of the newspaper at Wittstock has been arrested for the publication of objectionable writings. A committee has been formed in Berlin to purchase the house, No 18 Unter den Linden, and to convert it into a place of religious worship. Numerous manufacturers have resolved to dismiss all their workmen attending Socialist meetings.

Between 20 and 30 persons have been arrested in various towns for expressing regret at the failure of Nobeling to kill the emperor.

At Brunswick and Barmen men have been arrested charged with telling beforehand of Nobeling's attempt.

At Hamburg the police closed a Socialist meeting.

At Wilhelmshaven a man was arrested charged with predicting the day beforehand that the A ... Wilhelm would sink the *Grosser Kurfurst*.

London, June 8, says the *Times* Berlin correspondent are ... the incredible statements now going the rounds of the German press.

The evening papers announce that Nobeling's condition has improved and that there is some prospect of his recovery.

Disastrous Colliery Explosion

London, June 7—6 P M.—A colliery explosion has occurred in Evans wood pit coal colliery at Haydock, six miles south of Wigan. The number of men in the pit at the time is estimated at 200 to 250. Many have been brought up badly injured. The larger proportion are believed to be killed but it is impossible to explore the mine in consequence of fire damp.

The McMinnville public school has an average enrollment of 120.

THE POTTER INVESTIGATION

How Tilden Tried to Buy an Elector.

Washington, June 6.—The investigation into the alleged Louisiana and Florida frauds was continued to-day.

Cox of the committee said he had received from Stanley Matthews originals of the correspondence between himself and Jas E Anderson which the clerk read. The letters appeared in Anderson's previous testimony with the exception of one dated Philadelphia April 1 wherein Anderson resigned all claims upon the administration requesting Matthews to secure his friend for him the office of the *North American* newspaper a position worth from $1,200 to $1,400 per annum in the Philadelphia custom house.

Butler offered the following resolution and it was unanimously adopted:

Resolved, that Stanley Matthews be invited to appear before this committee at his convenience and make any explanation regarding the letters from Mr Anderson to himself just read as he may desire and to answer such questions as may be pertinent to the subject of the investigation.

Judge Levisse testified that he had been offered by one Asher $100,000 to cast his vote as an elector for Tilden. Asher was the only person who had spoken to witness on the subject. Another person named Johnson, formerly sergeant at arms in the Louisiana house of representatives called on witness at his lodgings and not finding him left a note stating that he (Johnson) desired to meet witness at a certain hour next morning on important business. But before that time he called at witness' lodgings and made an arrangement with him to meet Asher at 1 o'clock. A man named Johnson called to see witness at his house, but he was out and the ladies of the house told witness they were under the impression, judging from the conversation and manner of Johnson, that he was desirous of making a bargain with witness to change his vote and stating as their reason for so believing that a remark was made by Johnson the effect of which was—"If I was in Levisse's place I would make one hundred thousand dollars out of it." Johnson witness said was intimately acquainted with the ladies of the house. (McMahon here produced a note and witness recognized it as the one left by Johnson when he first called). Continuing Levisse said Asher was previously cashier of a bank in Shreveport. At the time in question he was in New Orleans transacting private business.

McMahon requested witness to state as near as he could remember the conversation between himself and Asher regarding the transaction.

In reply he stated that after some preliminary remarks Asher asked him if he would be willing to accept his certificate of election as an elector.

Levisse said he did resign on the advice of his friends whom he had consulted including Beck with Judge Campbell and John Ray. He resigned because he thought he was ineligible as he at that time filled a federal office. He was not advised nor did he understand he would be elected to fill his own vacancy, but thought it possible such would be the case. As to the offer of $30,000 or $40,000 it was not often a man had a chance by a simple vote to make a president of the United States, and the service therefor ought to be worth a larger sum. Asher said it was not enough. The conclusion of the conversation was this: he said to Asher "Tell your man who has money he has not got up to the price yet." Levisse intended to convey the impression that he would take $200,000 but at the same time intended to put up the price so high that the sum could not be paid.

McMahon—You thought money was lying around, that a payment to you would be all right?

Levisse—I did not say that. I had intimated 24 hours in advance that something wrong was going on, and that put me on my guard. I informed Pitkin of Louisiana and I did this to guard my political virtue. It may gentlemen seem strange that such a thing should exist in Louisiana. [Laughter.]

Levisse further said that in his conversation with Asher he guessed what was coming before it was mentioned, and therefore to be prepared to meet him, he listened to Asher instead of bluffing him or calling a police and listened in such a way as to give opportunity to Asher to develop his scheme. He wanted Asher and everybody connected with him to believe the thing would succeed. He merely wanted to draw Asher out. He knew this was the only way to get at the bottom of the matter and he said to Asher "Tell your backer that Levisse is not unwilling to consider your proposition providing you can raise $200,000." He mentioned so large a sum because he knew or thought it could not be paid. The entire conversation was had during a walk of half an hour.

Asher appointed a second interview at the St Charles hotel. Accordingly they met. Asher informed witness the proposition would have to be changed somewhat, and instead of refusing to accept the certificate as elector Levisse would be required to cast his vote direct for Tilden. Upon being asked by witness where the money was coming from Asher said: "We will walk to the corner of Carondelet and Common streets and there we will see two men standing in the glimmer of the gaslight. One of them will retire as we approach and the one remaining you will understand is the man you are looking for." We went to the designated place and found the men mentioned. As we approached one withdrew so quickly that had I known him I should not have recognized him. The person remaining was Jo Hernandez a broker in New Orleans. After saluting him and introducing Asher, who did not know him he invited us to his office which was near by. Upon arriving at the office, I excused myself and although he (Fernandez) insisted upon my going in, I went home stating as I left there was no need of my going in, as Asher could do all the talking necessary. That closed the second and third interviews.

Levisse met Hernandez afterwards and Hernandez told him $100,000 was the extent he could go when Levisse said it was not worth while to longer talk about the matter. Levisse said he was never bribed nor did he offer to bribe anybody. In reply to McMahon he said he never made an affidavit of the affair though he entered into the matter as a means of political justice. Levisse said he voted for Hayes and Wheeler.

Considerable discussion occurred in regard to the official returns from Louisiana and those laid before the committee by the secretary of the senate were called for. Witness said a portion of the documents shown him were not signed by him although purporting to be and consequently were forgeries.

A communication from the president accompanied by original copies of the correspondence between Matthews and Anderson was read. The letters urged the appointment of Anderson to a foreign consulship and were signed by Stanley Matthews, J S Leonard, W P Kellogg and others.

The Florida Sub-Committee.

Jacksonville, Fla, June 7.—Before the house sub-committee to-day A A Allen testified that in November, 1876 he was sheriff of Baker county and made a canvass with the county judge. On the 10th of November a man named Driggers came to see me and said we were beat if you don't do something. He said we could make the canvass. I said we had no justice of the peace. He said he had one all right named Bill Greene, told him I would canvass with him after dark in the clerk's office and looked over the returns. We decided to throw away two precincts—Darbyville and Johnsville—at the suggestion of Driggers, the reasons given being that intimidation had been practiced at one and illegal voting at the other. The intimidation consisted in refusing to let a man vote. There was no evidence in the Johnsville precinct. It was charged that three or four men didn't live in the county that had voted. Their names had been added to the registration list. We had no witness before us. That is all the reason I know of for throwing out the precincts. Of course the object was to have the Republicans benefit possible. I suggested we should have some affidavits but Driggers said we had authority to throw out the returns. No irregularity was pointed out on the face of returns. The precincts thrown out changed the result in the whole county. In making the change it gave the Republicans the majority. Coxe and the justice had possession of the clerk's office all day and staid till dark. We got in by Driggers having the key. Coxe was not there. In answer to Hiscock witness said: One J W Barnett a Democrat, asked me to sign Coxe's canvass. I said I would not. He said if I would there was some money for me. I asked him how much. He said $125, and if I would come with him he would show me the man that had the money. He took me to the Paris store and I saw John R Hartridge a Democrat of Jacksonville and he said if I would sign the return that Coxe made out he would compensate me for my trouble. I told him I could not. It looked too much like a bribe. He said it wasn't for a bribe only to pay me for my trouble.

Sheriff Allen in his testimony said he knew Driggers had declined to act with Coxe but thought his being in town was sufficient presence. The reason he did not participate was because he knew it would engender great prejudice among people. When Coxe and Darman made a canvass I thought it was not treating the people right and took felt an interest in the Republican party and took every advantage I could for it. I did not think they made a false canvass. He asked to do nothing but to operate in the canvass of the county. Was not asked to throw out any precincts. At this point Hiscock introduced a resolution asking a summons for J B Bryant and J W Howell. Rejected by a vote of ayes Hiscock, nays Hunton and Springer, the latter giving as a reason for their vote that the testimony of these parties would relate to matters beyond the jurisdiction of the committee. A resolution was also introduced by Hiscock that several hundred persons in Alachua and Baker counties be summoned. Rejected by the same vote.

Wm Green testified that he lived in Baker county in November 1876. ... was justice of the peace. Driggers told me he wanted me to ... canvass ... the proceedings ... the clerk's office ... Driggers said it was in ... never performed the duties of justice of the peace afterwards except to marry one couple. Driggers said ... the day ... before the canvass ... he said ... would sign it ... afterwards never was paid any fees for my commission as justice of the peace.

Hiscock made a long cross examination in which witness stated that about two months ago he swore to the affidavit ... drawn up by Mr Martin, and was paid ... dollars for time ... signed ... but didn't ask what the affidavit was for.

Springer read an affidavit from Green from the testimony ... before ... regard to Baker county ... Tallahassee ... to which a certificate was attached ... Green ... Allen that the ... of Driggers ... so far ... he never knew of ... Tallahassee.

Allen recalled ... did not remember ever signing the affidavit in Tallahassee ... went to Tallahassee about that time ... expenses were paid by Mr H Bisbee ... gave him $1 to give me ... in Tallahassee three days. Witness ... was drinking very hard part of the time ... in Tallahassee and ... paper ... Green and ... were both drunk one day.

The session of the committee in the evening was unimportant.

Bloxham recalled and returns of counties read showing on the face a majority for Tilden electors. Bloxham said he never was in telegraphic communication with Hewitt, Tilden or Havemeyer; sent no dispatches in cipher to them. He knew or ... money in witness' name. It was all right. He don't know who telegraphed under the name of Max or Fox or River.

Samuel Pasco, late chairman of the state executive committee, testified to the proceedings before the state board of canvassers in regard to the Baker county returns; sent no telegrams in cipher out of the state, didn't know who Max, Fox, River or W were.

Adjourned till evening.

THE IDAHO INDIAN WAR!

[BY TELEGRAPH TO THE OREGONIAN]

San Francisco, June 7.—A Boise City dispatch says: Five men scouting up Bruneau valley found all the settlers gathered at Robinson's ranch and fortified. The valley was raided by Indians who took away all stock. On Sunday the settlers saw Indians numbering about 200 and driving 600 horses making all speed up the valley towards the upper waters of Owyhee river, in the vicinity of Battle Mountain. Col Bernard with sixty cavalry is in pursuit. Information is received that the Bannacks murdered one white man and two Piute Indians near Big Springs, on the Elko stage road. The bodies of three whites were found a few miles below Glenn's ferry, on Snake river two of whom, John Baucom and Robert Ferguson were of Rock creek station. Numerous large and small bands of Indians are raiding the country in many directions. Stages continue to run strongly guarded but are delayed by the loss of stock. Parties just arrived from the Owyhee country, about fifty miles southwest of Boise City report a distinct party of Bannacks camped in that vicinity who have been killing stock and committing other depredations for several weeks and are growing daily more insolent towards the whites. Families are gathering at Silver City and other points for safety. People are awaiting the arrival of the regulars with the greatest anxiety.

Boise City, June 7.—A courier arrived here to-day from Col Bernard's command, which was camped yesterday morning on the upper Bruneau valley fifty miles south of this city and about an equal distance to the east of Silver City, Idaho. The settlers who had been warned of the approach of the hostile Bannocks by a friendly Indian, Capt Bruneau John, had all abandoned their homes and gone into a hastily constructed fortification before the Indians made their appearance in the valley. According to dispatches brought by the courier Col Bernard would move this morning toward Duck valley escorting the families from Bruneau valley that are on their way to Elko. The command will follow on the trail of the Indians, watch their movements and locate their halting places, while reinforcements are coming forward. Couriers will pass between the command and Silver City, from which point dispatches will be telegraphed to this city.

In Bruneau valley the Indians murdered two men who happened to be out hunting stock, one of whom they mutilated most horribly. Thus far they are known to have murdered six white men besides wounding two others at Big Camas prairie. Major Sanford's command, composed of two companies of cavalry left Kelton yesterday by the overland road with orders to go into camp at King Hill station 85 miles from Boise City. His point is near the lava beds where large numbers of the Bannocks were encamped when last heard from. The Shoshone Indians, the Weisers and other tribes and remnants of tribes who have heretofore been considered friendly and harmless, have entirely disappeared from their usual haunts and none of them are to be seen. They have all been drawn into the vortex of the general uprising.

Governor Brayman having denied, through the press, that he was instrumental in furnishing Buffalo Horn the hostile Bannock chief with ammunition, we deem it a duty to ourselves as your representatives to forward to you the following plain evidence of the fact. The following among other similarly written communications addressed to merchants in this city, was written by Brayman and given to Buffalo Horn who upon the strength of Brayman's endorsement obtained ammunition.

May 1, 1878

Mr Pinney: Buffalo Horn wants, say $2 worth of Winchester cartridges for deer hunting (he is loyal) and $1 worth of powder. M BRAYMAN

I certify that the foregoing is a true copy of the order exhibited to me by James A Pinney and upon which he informed me he delivered ammunition to the Bannock Indian, Buffalo Horn.

JOS W HUSTON, U S Att'y for Idaho

On the strength of this note from Brayman Mr Pinney did like the rest of the merchants who received similar recommendations and indorsements of Buffalo Horn by Brayman sold the ammunition to the Indians. In this way Buffalo Horn succeeded in obtaining a large amount of ammunition which fact will be testified to by Mr Leonard a prominent and respectable merchant of this city in whose store Buffalo Horn left his traps while walking round town. Mr Leonard saw in one package half a flour sack full of ammunition. These are the conclusive proofs of the fact of this unlawful and dangerous act for which Brayman will be held to account by the people and by the authorities here, whatever may be the verdict of the press or of parties at a distance.

The public meeting in this city, which Brayman characterizes as a mob, was composed of the most respectable citizens of Boise City presided over by ex Secretary E J Curtis and was addressed by Hon M E Hollister chief justice of the territory who was the leading spirit of the occasion and who fully indorsed all the proceedings. Brayman was denounced at the meeting of course as he always is here by the citizens for his many offenses against the peace and safety of the country and more especially for this last act of assisting Buffalo Horn in obtaining ammunition. There was no feature of the meeting partaking in the slightest degree of the nature of a mob and Brayman's account is false in every respect and grossly insulting to the respectable citizens who compose it. It is the incapacity and innate viciousness of this man Brayman which makes the Indian situation more grave and menacing to the people of Idaho.

The information from Camas Prairie indicates a return of parties of Indians since the troops left for Snake river. Capt. Parsons, from Rocky Bar, has marched down to prevent further depredations. The governor has forwarded rations. The company of Capt Dougherty at Idaho City, in answer to the call of the governor are preparing to march when ordered. A company of citizen soldiers, commanded by Capt Burge is guarding Mountain Home ferry while the troops pursue the Indians. The company was armed and provisioned from Ft Boise on requisition of the governor. An additional supply of rations left to-day for his command. Captain Bush has not reported but is understood to be in the vicinity of Payne's ferry.

Capt Burge, in his second report last night was expecting the approach of the enemy.

One hundred and thirty two of the best citizens of Boise City have enrolled and organized the Boise City Home Guards to preserve a permanent organization for the exigencies of the future as well as for the present having chosen for principal officers John Pollard captain Edward Payne and R C Adleman 1st and 2d lieutenants. This company will be armed and equipped as soon as possible.

That the sensational story sent from here to traduce Governor Brayman may be disposed of it is well to state that nearly a month ago previous to rumors of the outbreak Buffalo Horn the favorite scout of Gen Howard, Gen Crook and Gen Miles with letters of commendation from them visited the camp at Fort Boise. While here he received from the governor the following paper:

Buffalo Horn wants say $2 worth of Winchester cartridges for deer hunting, and $1 worth of powder. He is loyal.

Upon this recommendation Buffalo Horn as I learn purchased 100 cartridges and one pound of powder. It is not yet learned that any of this has been used for improper purposes or that the ... of this ... ammunition had any ... ing hostilities. This ... Buffalo Horn proposed to ... two weeks.

Barbat is recently reported from the Bruneau valley ... determination to savage warfare. It is still ... the arrival of General Howard and ... the ... the ...

Gov Brayman has just received a dispatch from Delegate Fenn. He has secured an order for arms ... 10 ... miles ... from Vancouver with ammunition. This ... is ... to the regular annual quota. The governor will issue these immediately.

CONGRESSIONAL.

Senate

Washington, June 7.—The president pro tem laid before the senate a communication from the secretary announcing that he had been summoned before the letter committee to produce his vouchers and returns and that he obeyed the subpœna. In conclusion he says: "I respectfully request you to lay this communication before the senate that if deemed necessary and proper I may be instructed as to my duty in the matter or that may be considered."

Thurman submitted an order that the secretary of the senate attend before the committee of the house mentioned with the papers called by the committee and submit the papers to examination from time to time according to the convenience of the committee.

A long discussion ensued. Several senators claiming that the proper way would have been for the house to have requested the senate to furnish the papers. Other senators argued that the papers were not in the custody of the senate by any law. They were merely in possession of the secretary according to usage since the organization of the government and therefore the committee had a right to summon the secretary to produce them. Finally the order of Thurman was so modified as to reserve all questions touching the regularity of the action of the committee of the house in calling for papers, instructing the secretary to attend the committee, etc., and as modified was agreed to.

After morning business senate resumed consideration of the army appropriation bill.

Blaine said the committee on appropriations this morning came to the conclusion that it would not be wise to unite the Indian question with reorganization of the army under the same commission. He therefore submitted a substitute for the house section to transfer the Indian bureau to the war department so as to provide for the appointment of three senators and four representatives as a joint commission to inquire into the expediency of transferring the Indian bureau to the war department and report to congress before the 1st of January 1879.

WEST INDIES

From Santo Domingo.

Havana, June 7.—It is reported that Gonzales was elected president of Santo Domingo. The voting began May 24th and continued three days. The presidential term is to be one year. Three Dutch war ships arrived in Santo Domingo to demand satisfaction for the seizure of the brig which is said to have been freighted with war material.

Surrender of more Cuban Insurgents

New York, June 7.—A Havana letter says: Late reports from the eastern department show further surrender of 10 chiefs 24 officers and 100 men at San Luis and complete dissolution of the so called new government instituted by Maceo in that department. Festivities for celebrating the peace upon arrival of Gen Martinez Campos will last four days. The following is the number of insurgents surrendered in Cincos Villas, La Trocha and central department since proclamation of peace conditions: 11 generals, 127 chiefs, 4.0 officers, 5,857 men and 3,577 members of families. Persons other than those surrendered in the eastern department are not included.

PACIFIC COAST NEWS.

CALIFORNIA.

The Sutro Tunnel and the Mines.

San Francisco, June 7.—Referring to an article from the *Stock Report* to-day the *Post* says:

By direction of the bonanza firm trustees of the Comstock mines under their control including the Best & Belcher, Gould & Curry, Hale & Norcross, Ophir, Mexican, Con Virginia, California, Union, Utah, Yellow Jacket, etc. met at noon to-day and unanimously resolved to withdraw all opposition to the royalty stipulated in the franchise of the Sutro Tunnel Co in regard to which suit is pending in the courts. This suit will be at once withdrawn and the compromise between the Comstock mines and the Tunnel Company may be considered as settled although the precise terms are not made public.

The *Bulletin* says in its financial column that the report that a compromise has been effected between the Sutro Tunnel Co and leading magnates of the Comstock is premature and is denied on behalf of Flood, by one competent to speak for him.

Superintendent Dodge has purchased 200,000 ounces of fine silver from the Anglo California Bank and 500,000 ounces from the Bank of California at a trifle over $1.18, payable in silver dollars or silver dollar certificates.

California declared the usual monthly dividend of $2 per share payable on the 17th inst. Con Va has also declared a dividend of $1 per share payable on the 14th inst.

Sutro and the Bonanza Kings.

The *Stock Exchange* says: It affords us pleasure to state that the basis of a compromise has been agreed upon between the leading magnates of the Comstock representing all the prominent mining companies, and Adolphe Sutro leading representative of the Sutro Tunnel Company. The terms of compromise have not yet transpired, but enough is known to warrant a statement that the compromise will have a favorable effect on Comstock stocks.

A Preliminary Agreement.

London, June 7.—It is said England and Russia have come to a preliminary agreement with regard to the terms of the treaty. Count Schouvaloff is taking to St Petersburg information relative to Great Britain's views which will enable Russia to decide about the instructions to give her plenipotentiaries.

Yamhill throws 1,703 votes, as against 1,490 in the presidential election of 1876.

The Daily Oregonian.

SATURDAY MORNING JUNE 8 1878

A PROPER MILITARY FORCE

Recently the Chicago board of trade passed a resolution memorializing congress to provide by law for the increase and maintenance of the army and recommended that the force be raised to 100 regiments of 1 000 men each, "to the end that all parts of our country may feel that they have something like adequate protection against the emergency likely to arise out of complications from without or of demonstrations of violence within our own country The *Tribune* says this resolution represents the sentiments of the business men of Chicago, and was inspired, not by any vague presentiments of future danger, but by the actual experiences of last summer when their property was in danger and the commerce of the whole country was paralyzed by an incendiary bloodthirsty mob of communists and other social disorganizers ' We cannot agree with the authors of this memorial that an army of 100,000 men is necessary, but it seems clear enough that congress, instead of reducing the army below its present strength, as a majority of the house are now trying to do, ought rather to increase it An army of 40,000 men is not too large for the wants of the country A force larger than our entire present army is needed to protect exposed portions of our country against Indian outbreaks and incursions, and there is absolute necessity of maintaining considerable numbers of troops at the principal forts along our coasts, so as to keep these places in something like a state of preservation and defence Then there is the problem of preserving order against the turbulent classes, like those who engaged in the incendiary and bloody scenes of last summer In this service state militia is of small use for assistance and protection Demagogues have hold of this question in congress, else there would be no thought of reducing the army. Members hope to get the votes of the riotous class by denouncing the use of the army to suppress their outbreaks And still beyond this lies another purpose On the part of not a few there is a hopeful desire of disturbing the presidential title; and should it be worked up to a point where a real effort could be made, they would find it very advantageous to have the army so reduced as to be of little use in enforcing the president's constitutional authority Motives like these inspire the continual efforts which are put forth to cut down the army It is demagogy and partisanship, rather than a policy for the public welfare

SUPPORTING UNWORTHY MEN.

The *Standard* has singular notions of political duty. Speaking of the refusal of Shepherd, of the *Bedrock Democrat*, to support part of the Democratic state ticket, it says ' Had Shepherd received the nomination (for state printer) at the hands of the convention we should have supported him, though we know the 'old man' to be utterly unworthy and incompetent for the place." This is a position which will command scarcely more respect than the threat made by Shepherd not to support his party, but to take "silent money" from the other side, unless $800 or $1,000 were deposited in Bush's bank for him. What authority has party to command a citizen to support for an important office one whom he "knows to be utterly unworthy and incompetent for the place?" One who sins against knowledge in this way, who sacrifices conscience and goes against his own clear judgment at the behest of party, wrongs both himself and the community. Unworthy men have only to presume on this species of servitude, and to enforce it by party discipline, in order to have their own way every time. Our neighbor has been commending Republicans for their revolt against "unworthy men," yet it deliberately states that it would itself support such, and has always supported every man nominated by the conventions of its party. It may be feared that the editor has now at last made the discovery that even the Democratic party doesn't reward fidelity like this. We hope our neighbor will have courage to bolt and scratch a little, upon proper occasion, hereafter.

It cannot be supposed that those disclosures in relation to the attempt to buy an elector for Tilden in Louisiana were the frauds the Potter committee were fishing for. It is really an outrageous fraud upon a committee which was organized to find frauds on the other side, to bring this matter before it Such conduct is a piece of impertinence which cannot be too severely reprehended The object in view in the appointment of this committee was to bring out matters against those who gave the vote of Louisiana to Hayes. But here is a fellow telling an irrelevant story of an attempt to bribe him for $100,000 to give Tilden an electoral vote This doesn't belong to the investigation at all. Investigation will be brought into disrepute if this thing of telling what the investigators don't want to hear becomes common.

The figures from Linn show that the Greenback movement made considerable inroads upon the Republican vote In the presidential election of 1876 the vote stood thus Hayes, 1,324, Tilden, 1,404, Cooper, 141 The vote on governor now shows this result Beekman, 1,134, Thayer, 1,420, Wilkins, 430 There is a loss on 190 Republican votes, while the greenback vote increases 289 At the same time the Democratic vote increases 16, and the total vote of the county 115 These figures prove that the Republicans, instead of getting Democrats to throw away their votes on the Greenback scheme, were "snuped" themselves They show beyond question that a majority who voted the Greenback ticket in Linn were Republicans

Auditor Maynard, of San Francisco has presented estimates of the cost of the government of that city during the next fiscal year The total is $5,460 620 70 To raise this sum will require a levy larger than San Francisco has known since 1854 Besides there are new schemes to augment the city s indebtedness, to multiply official positions, and consequently increase the rate of taxation San Francisco is starting rapidly on the road toward a vast debt like all our large cities which are governed by the votes of those who don't pay the taxes

As appears by official returns Hon John F Caples is elected district attorney for the 4th judicial district by a majority of 122

The *Reporter* says Yamhill never had so hotly contested an election It adds Never have we beheld such relentless industry displayed in a political combat It seemed as if nearly every vote went to the ballot box under a raking fire of dispute

The Hillsboro *Independent* says the all eg ents of Mitchell in Washington county w rl ed act vely against Judge Humphreys in the legislature

The total vote of Washington county on governor is 1 307 On president in 1876 the total vote was 1,117

COMMENCEMENT AT FOREST GROVE

The exercises at commencement were unusually interesting this year The place and surroundings were truly charming

On Monday evening the college societies were ably addressed by Mr George on ' The Growth of the Constitution On Tuesday evening Mr Raleigh Stott delivered an interesting and thoughtful address before the a umni upon the modern social phenomenon called The Hoodlum In brief, he attributed the growth of this species of Ishmaelite to a lack of proper social culture and to unattractive homes On Wednesday the exercises connected with the graduating class—ten in number—took place The addresses and essays were first rate and showed that their authors knew what they were talking and writing about Where all did so well it seems invidious to single any out for special commendation but I cannot refrain from making special mention of the essay on Belief and Doubt, by Miss Mary F Lyman and the valedictory by Miss R Ellen Scott

Here are the names of the graduates and their exercises

Political Progress Milton W Smith Plant Life Mary A Cresswell Obligation, Elvia H Fearnside Belief and Doubt Mary F Lyman Life, D Clinton, Latourette Talk Mary S Eaton Labor Reform, Samuel R Stott, Ideas, Horace S Lyman Silent Influences, Laura M Hoxter Gifts and Valedictory, R Ellen Scott

At the close of these exercises the degrees were conferred by Dr Marsh and the following beautiful song composed for the occasion by Mr Lyman of the graduating class, was then sung to appropriate music composed by Miss Scott

Class Song.

BY H S LYMAN

I

The shores are lined the rocks are crowned
Along the sparkling bay
By many friends who ve come to see
The new boats launch away

Chorus—Across the seas across the seas,
The winds of action blow
Beyond the seas beyond the seas
The gates of morning glow

II

Upon the wave in open space,
The boats are set in view,
Their masts are trim their sails are white
All shining bright and new
Chorus

III

But now at length they slide along
Down to the bending tide
They touch the flood they feel the wave
And far away they glide.
Chorus

IV

To day we launch to-day we glide
Down from the college ways
We feel the tide we catch the winds,
That bear to future days.

Chorus—Across the seas across the seas
The stars like beacons shine
Beyond the seas beyond the seas,
Await the shores divine

V

The winds blow strong the waves gleam white
The tide bears us away
We ve work to do wide seas to cross,
We must no longer stay
Chorus

VI

And so farewell to all we leave
Welcome to all before!
We ll use our strength to sail aright
And trust in God for more
Chorus

In the afternoon there was an Alumni dinner in the north college building at which there were many good things *said* and *eaten* Among the speakers were Dr Atkinson, Judges Deady and Boise, Messrs Raleigh and Samuel Stott Tongue, Ball Curtis, Smith, Ferren, Lyman, Hon H W Corbett and Rev. Mr Lyman This was a very enjoyable affair, and ought to be repeated at every commencement In the evening there was a reunion at the church, and then the college year and class of 1878 were numbered among the things of the past But they will not soon be forgotten by their friends. BEAUTY:

OR, THE

Secret of a Fair Face.

An Item of Interest to Every Lady who Desires to be More Beautiful than she now is.

Unfortunately not one woman in a hundred, subjected to the whims of an American climate possesses that basis and starting point of real beauty —a pure and clear complexion What nature has thus denied art must be called upon to furnish It can be done It is done daily Prof W E Hagan placed beauty within the reach of every unblessed daughter of Eve when he discovered that surpassing article known in fashionable circles as the true secret of beauty and called

MAGNOLIA BALM

The MAGNOLIA BALM is a pure device for retaining a pure and blooming complexion It conceals all natural blemishes in the most surprising and effective manner It removes all roughness eruption redness, blotches freckles and tan with magical power It drives away all evidence of fatigue and excitement. It imparts a plump to the cold utility It gives the complexion a dazzling purity and makes the neck face and arms appear graceful rotund and plump Dis ... change ... rustic maiden into a cultivated city belle

The Magnolia Balm overall blemishes and conceals every drawback to beauty, and, while it is harmless as water it is so perfect in its effects that the closest observer cannot detect its use Ladies who want to make themselves attractive can make an absolute certainty of it by using HAGAN'S MAGNOLIA BALM, and we know of no other way It is the cheapest preparation in the world all things considered and may be had at any drug store.

CITY.

AN ACCESSIVE RODENT One of our subscribers who lives on the Canyon road reports that he has been annoyed for a long time with rats He has tried to trap them with steel traps but with poor success Then he tried strychnine without effect Next he came down to the city and got a patent rat poison He put the bane out one night and all the rats disappeared but one This remaining member of the rodent family seems poison proof for it eats the bane every time it is put out but the rat will never say die, and is becoming an intolerable nuisance. The rat s becoming ago it went into the bed. Two or more weeks ago it went into the bed where the children were sleeping and bit one of them on the finger and last week it got into the same bed and bit another child through the end of the nose The gentleman would like to learn if any one could tell him how to get rid of that rat

Dr Raffety was hastily summoned and rendered all the assistance in his power The force of the fall produced concussion of the brain and Bowers' recovery is deemed doubtful He was removed to St Vincent s Hospital where he now lies in a precarious condition

THE WEEKLY OREGONIAN —As usual the weekly issue of THE OREGONIAN is brimful of general news commercial reports and miscellaneous matters Included in this summary are the election returns by counties, arranged with great care and aim to complete ness Information to those desiring to come to Oregon is given in this and all numbers issued and for this reason is the very best medium to send abroad There is nothing better printed in the state to meet this want. STEAMSHIP GREAT REPUBLIC —A few days ago the statement was made that there was a strong probability of the steamship *Great Republic* being placed on the route between San Francisco and Portland There was nothing very certain or definite in the announcement, and consequently much public inquiry has been elicited To ascertain the truth of such announcement Col J R Farrish telegraphed to his private agent in San Francisco yesterday inquiring about the matter. He received the following answer "*Great Republic* uncertain probably not go to Portland. Particulars hereafter"

PRESBYTERIAN FESTIVAL —Those in attendance at the festival held in the basement of the Presbyterian Church last evening had a most enjoyable time indeed. Miss Rosenheim favored the company with selections on the piano and was rapturously applauded A bountiful supply of ice cream, cakes, etc was provided, of which little remained at the termination of the festivities. The festival was above the average, and everybody departed exceedingly well pleased.

DISABLED TEMPORARILY —A few days ago the little tug boat *Red Jacket* met with an accident which will cause her to be laid up for some time While coming up the river she broke a crank pin and before the wheels could be stopped the crank made several revolutions breaking up a good part of the machinery and totally disabling the boat. She was taken to the iron works in the southern part of the city where she is being repaired

BOATING CLUB —A number of gentlemen will meet next week to organize a boat club. They will be of the substantial sort who will enter into the arrangement with plenty of coin and a determination to make the organization complete in every particular Interest in boating we judge is greatly on the increase and some exciting contests may be anticipated during the season

A PROPER MILITARY FORCE

Recently the Chicago board of trade passed a resolution memorializing congress to pro vide by law for the increase and mainten ance of the army and recommended that the force be raised to 100 regiments of 1 000 men each, "to the end that all parts of our coun try may feel that they have s meth ng l ke adequate protection against the emergency likely to arise out of complications from without or of demonstrations of violence within our own country The *Tribune* says this resolution represents the sentin ents of the business men of Chicago and was in spired, not by any vague presentiments of future danger, but by the actual experiences of last summer when their property was in danger and the commerce of the whole coun try was paralyzed by an incendiary blood thirsty mob of communists and other social disorganizers ' We cannot agree w th the authors of this memorial that an army of 100,000 men is necessary but it seems clear enough that congress instead of reducing the army below its present strength as a major ity of the house are now trying to do ought rather to increase it An army of 40 000 men is not too large for the wants of the country A force larger than our entire present army is needed to protect exposed portions of our country against Indian outbreaks and incur sions and there is absolute necessity of maintaining considerable numbers of troops at the principal forts along our coasts so as to keep these places in something like a state of preservation and defence Then there is the problem of preserving order against the turbulent classes like those who engaged in the incendiary and bloody scenes of last summer In this service state militia is of small use for assistance and protection Demagogues have hold of this question in congress else there would be no thought of reducing the army Members hope to get the votes of the riotous class by denouncing the use of the army to suppress their out-breaks And still beyond this lies another purpose On the part of not a few there is a hopeful desire of disturbing the presidential title; and should it be worked up to a point where a real effort could be made they would find it very advantageous to have the army so reduced as to be of little use in enforcing the president s constitutional authority Mo tives like these inspire the continual efforts which are put forth to cut down the army It is demagogy and partisanship, rather than a policy for the public welfare

SUPPORTING UNWORTHY MEN

The *Standard* has singular notions of polit ical duty Speaking of the refusal of Shep-herd, of the *Bedrock Democrat*, to support part of the Democratic state ticket, it says ' Had Shepherd received the nomination (for state printer) at the hands of the convention we should have supported him, though we know the 'old man' to be utterly unworthy and in competent for the place." This is a position which will command scarcely more respect than the threat made by Shepherd not to sup port his party, but to take " silent money " from the other side, unless $800 or $1 000 were deposited in Bush's bank for him What authority has party to command a citizen to support for an important office one whom he " knows to be utterly unworthy and incom petent for the place ? ' One who sins against knowledge in this way, who sacrifices con science and goes against his own clear judg ment at the behest of party, wrongs both himself and the community Unworthy men have only to presume on this species of servi-tude, and to enforce it by party discipline in order to have their own way every time Our neighbor has been commending Republicans for their revolt against " unworthy men ,' yet it deliberately states that it would itself support such, and has always supported every man nominated by the conventions of its party. It may be feared that the editor has now at last made the discovery that even the Democratic party doesn t reward fidelity like this. We hope our neighbor will have cour-age to bolt and scratch a little, upon proper occasion, hereafter

It cannot be supposed that those disclos ures in relation to the attempt to buy an elec tor for Tilden in Louisiana were the frauds the Potter committee were fishing for It is really an outrageous fraud upon a committee which was organized to find frauds on the other side, to bring this matter before it Such conduct is a piece of impertinence which cannot be too severely reprehended The object in view in the appointment of this committee was to bring out matters against those who gave the vote of Louisiana to Hayes. But here is a fellow telling an ir relevant story of an attempt to bribe him for $100,000 to give Tilden an electoral vote This doesn't belong to the investigation at all. Investigation will be brought into dis-repute if this thing of telling what the in-vestigators don t want to hear becomes com mon.

The figures from Linn show that the Green-back movement made considerable inroads upon the Republican vote In the presiden tial election of 1876 the vote stood thus Hayes, 1,324, Tilden, 1 404 Cooper, 141 The vote on governor now shows this result Beckman, 1 134 Thayer 1 420 Wilkins 430 There is a loss on 190 Republican votes, while the greenback vote increases 289 At the same time the Democratic vote increases 16, and the total vote of the county 115 These figures prove that the Republicans, instead of getting Democrats to throw away their votes on the Greenback scheme, were "swiped" themselves. They show beyond question that a majority who voted the Greenback ticket in Linn were Republicans

Auditor Maynard, of San Francisco, has presented estimates of the cost of the govern ment of that city during the next fiscal year. The total is $5 460 620 70 To raise this sum will require a levy larger than San Francisco has known since 1854 Besides there are new schemes to augment the city s indebted ness, to multiply official positions and conse-quently increase the rate of taxation San Francisco is starting rapidly on the road to ward a vast debt like all our large cities which are governed by the votes of those who don't pay the taxes

As appears by official returns Hon John F Caples is elected distr ct atto ney for the 4th judicial district by a major ty of 1.2

The *Reporter* says Yamhill never had so hotly contested an election It adds Never have we bel eld such relentless industry dis played in a political combat It seemed as if nearly every vote went to the ballot box under a raking fire of dispute

The Hillsboro *Independent* says the a ll er ents of Mitchell in Was ington co r y w rl ed actively against Judge Humphreys or the legislature

The total vote of Washington county on governor is 1 317 On president in 18 6 the total vote was 1 117

COMMENCEMENT AT FOREST GROVE

The exercises at commencement were unu sually interesting this year The place and surroundings were truly charming

On Monday evening the college societies were ably addressed by Mr George on The Growth of the Constitution On Tuesday evening Mr Raleigh Stott delivered an inter esting and thoughtful address before the alumni upon the modern social phenomenon called The Hoodlum In brief he attrib uted the growth of this spec es of Ishmaelite to a lack of proper social culture and to un attractive homes On Wednesday the exer c ses connected with the graduating class—ten in number—took place The addresses and essays were first rate and showed that their authors knew what they were talking and writing about Where all did so well it seems invidious to single any out for special com mendation but I cannot refrain from making special mention of the essay on Belief and Doubt by Miss Mary F Lyman and the valedictory by Miss R Ellen Scott

Here are the names of the graduates and their exercises

Political Progress Milton W Smith Plant Life Mary A Cresswell Obligation Elvira H Fearnside Belief and Doubt Mary F Ly man Life D Clinton Latourette Talk Mary S Eaton Labor Reform Samuel R Stott Ideas Horace S Lyman Silent Influ ences, Laura M Hoxter Gifts and Valedic tory R Ellen Scott

At the close of these exercises the degrees were conferred by Dr Marsh and the follow ing beautiful song composed for the occasion by Mr Lyman of the graduating class was then sung to appropriate music composed by Miss Scott

Class Song

BY H. S LYMAN

I
The shores are lined the rocks are crowned
Along the sparkling bay
By many friends who ve come to see
The new boats launch away

Chorus—Across the seas across the seas
The winds of action blow
Beyond the seas beyond the seas
The gates of morning glow

II.
Upon the wave in open space
The boats are set in view,
Their masts are trim their sails are white
All shining bright and new
Chorus

III
But now at length they slide along
Down to the bending tide
They touch the flood they feel the wave
And far away they glide.
Chorus

IV
To day we launch to-day we glide
Down from the college ways
We feel the tide we catch the winds
That bear to future days.

Chorus—Across the seas across the seas
The stars like beacons shine
Beyond the seas beyond the seas
Await the shores divine

V
The winds blow strong the waves gleam white
The tide bears us away
We ve work to do wide seas to cross
We must no longer stay
Chorus

VI
And so farewell to all we leave!
Welcome to all before!
We ll use our strength to sail aright
And trust in God for more
Chorus

In the afternoon there was an Alumni din ner in the north college building at which there were many good things *said* and *eaten* Among the speakers were Dr Atkinson Judges Deady and Boise Messrs Raleigh and Samuel Stott Tongue Ball Curtis, Smith, Ferren Lyman Hon H W Corbett and Rev Mr Lyman This was a very enjoyable affair, and ought to be repeated at every com mencement In the evening there was a re union at the church, and then the college year and class of 1878 were numbered among the things of the past But they will not soon be forgotten by their friends DD

BEAUTY:

OR THE

Secret of a Fair Face.

An Item of Interest to Every Lady who Desires to be More Beautiful than she now is.

Unfortunately not one woman in a hundred sub-jected to the whims of an American climate pos sesses that basis and starting point of real beauty —a pure and clear complexion What nature has thus denied art must be called upon t f rnish. It can be done It is done daily Prof W E Hagan placed beauty within the r ch of e ery unbl ssed daughter of Eve when he dis vere l that s rpris ing article known in fashionable circles as the true secret of beauty and called

MAGNOLIA BALM

The MAGNOLIA BALM is a sure devi e f r er tting a pure and blooming complexion. It conceals all natural blemishes in the most surprising and effec tive manner It removes all roughness eruption, redness blotches freckles and t n with magical power It drives away all e idence of f tigue and excitement. It makes a plain face be utiful It gives the complexi dazzling purity and makes the neck face ... rotund and plump. ... look not more than ... rustic maiden into a c l vated city belle.

The Magnolia Balm removes all blemishes and conceals every drawback to beauty, and, while it is harmless as water it is so life like in its effects that the closest observer cannot detect its use Ladies who want to make themselves attractive can make an absolute certainty of it by using HAGAN s MAG-NOLIA BALM, and we know of no other way It is the cheapest preparation in the world all things considered and may be had at any drug s ore

Oregon Ahead of the World.

Some of the greatest scientists in exploring the North Pacific Coast have discovered an endless variety of plants in Oregon which they declare far excel any plants of other countries for the large percentage of medicinal properties they contain. Oregon may well be proud of her advantages over other countries in producing vegetables of so valuable properties. The incomparable climate, abundancy of rain and rich soil is unequalled by any other country. Mr Wm Pfunder, an experienced chemist of Portland, has after several years experimenting succeeded in extracting all the medicinal virtues of some of these famous plants and in combining them scientifically with the choicest botanical remedies of other countries produced a preparation which has never been equalled as a purifier of the blood and a general regulator of the system. Any one suffering from diseases that arise from impurities of the blood, irregularities of the liver, bowels and kidneys would do well to try a bottle of this excellent preparation and judge of its effective qualities. It has been named the Oregon Blood Purifier and may be obtained of any dealer in medicine for the reasonable price of one dollar. A Remarkable Result.

It makes no difference how many physicians or how much medicine you have tried, it is now an established fact that German Syrup is the only remedy which has given complete satisfaction in severe cases of Lung Diseases. It is true there are yet thousands of persons who are predisposed to Throat and Lung Affections, Consumption, Hemorrhages, Asthma, Severe Colds settled on the Breast, Pneumonia, Whooping Cough, &c., who have no personal knowledge of Boschee's German Syrup. To such we would say that 50,000 dozen were sold last year without one complaint. Consumptives try just one bottle. ... Sold by all Druggists in America.

DR. PAUL M. BRENAN.

His Wonderful Success

IN THE TREATMENT OF ALL

Chronic and Difficult Diseases.

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS public and private lectures the true principles of health and life to both male and female. He has also warned them against habits that would be likely to produce disease, in plain and comprehensive language. But where he has found them crushed and broken down by disease, mentally and physically, he has restored them to health and happiness, for it is well understood that without health there can be no happiness.

DR. BRENAN

has made a specialty in the treatment of the following diseases: Catarrh, Bronchitis, and all diseases of the throat and chest, by an entirely new system only known to himself. Diseases of the Kidneys and Urinary Organs, including Spermatorrhea, Seminal Weakness or premature loss of Manhood. In the treatment of these diseases he has made a world wide reputation by his astonishing success, not only on this Coast but throughout the whole United States. Diseases of the stomach, bowels, liver and kidneys as well as all diseases of the blood and skin he has become master of, and never fails to give relief at once, and permanently cures the case if he is applied to in time.

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only for years and is perfectly familiar with all female complaints, and understands their delicate and refined organization, as well as the proper remedies which should be used to allay their suffering and restore them to perfect health.

THE DOCTOR HAS THIS ADVANTAGE

over most physicians—he can tell the patients' disease the moment he comes in contact with them without any aid from the individual. This accounts in part for his great professional success.

All surgical operations can be performed by his skillful hand, and the patient need not fear the result.

DR. BRENAN

will send to those living at a distance and who cannot well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally, and will forward the proper medicines, or instruments, to any part of the country with full instructions and advice. Each letter requiring advice or list of questions, must contain two postage stamps.

Everything strictly confidential and honorable.

THE DOCTOR

has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this State can testify.

CAUTION.

Persons coming to Portland, requiring medical treatment of the proper kind, who desire to consult with me, will please beware of persons who may try to coax them away to other so-called Doctors, through pretended friendship for the patients. Look out for them; they are knaves, prompted by selfish motives and what they can make. Be sure and ask for DR. PAUL M. BRENAN, the *Medical Lecturer*, and read his sign on his door.

GENERAL NEWS.

(BY TELEGRAPH TO THE OREGONIAN.)

Attempted Assassination—Lynched.

NEW ORLEANS, June 8.—The *Democrat's* special from Bayou Sara says on Sunday night last as Dr. Wm. B. Archer was returning home he was set upon by six negro men who were lying in the bushes waiting for him. Five of the negroes had double-barrelled guns, and one a musket. Dr. Archer was on horseback and riding on top of the levee. The assassins were concealed behind two cottonwood trees standing within a few feet of the levee, and as he passed the trees, five shots were fired as the doctor was passing, his clothes being riddled with bullet holes. He was thrown from his horse, but fortunately not much injured. The assassins ran away. On Tuesday five of the parties were caught and hung. Two of the prisoners were allowed to make their statements. They stated that they intended to kill Dr. Archer on Sunday night, and after making away with him they were to kill others. They stated also that they belonged to an organized club, the object of which was to kill the leading white men in the country and establish a nation of their own.

An explosion in a coal pit at Haydock to-day shook the earth for miles around. The first explorer descended the shaft five minutes after the explosion and others followed. Ten men were rescued alive and sent to the surface; one died almost immediately and others suffered much from after damp. Eight other men are alive and have taken refuge in a working of the mine. Two hundred and thirty two are dead. Explorers state that they found the bodies decapitated, reduced to shapeless masses and some blown to pieces. It is expected corpses will be brought up by midnight. The cause of the explosion is unknown.

LONDON, June 8.—An explosion in the Evans coal mines, Haydock, yesterday, occurred at 11 in the morning. The following particulars are given:

Wood Pit colliery consists of two mines—Ravenshead and Florida. The explosion was confined to the last named. The men went to work at 6 A. M. The condition of the mine had been examined as usual, and ten minutes after the disaster it was to all appearances safe. There were 250 men in the Wood Pit colliery, 18 in the Ravenshead, and the remainder in the Florida mine. The men in Ravenshead were got at immediately. One died, and the others were badly affected by the after damp. The two mines are connected by a tunnel, and it was in the working of the Florida mine beyond the tunnel that the explosion occurred. It is the general opinion that every man in that part of the mine is dead. Explorers found dead bodies of men and horses on every side, fearfully burned and mutilated. The men engaged in exploring the mine are working day and night, endeavoring to reach the place where most of the bodies are supposed to be. General grief prevails.
